million-year-old shark teeth discovered in a 2,900-year-old house, nowhere near similar fossils, may have been valued as collectibles.

"It was the best of church, it was the worst of church..." [not Charles Dickens] In some ways, the church has a horrendous track record and is deserving of much of the hate, accusation and mistrust it has received. But, in many other ways, the church has also been monumental in affecting great systemic change, being first on the scene in crisis and on the forefront of reaching out to and loving well those considered the least of these. To those of you who believe church is the worst thing ever: You're right! To those of you who believe church is the best thing ever: You're right! The church was God's idea and it is the plan He has chosen to bring transformation to a world desperately in need of a deeper experienceof His love. He doesn't appear to have a plan B. We are it! i call this book, 'i, church' because more than a building or a meeting or a list of do's and don'ts, the church is about the people. It is about me. And it is about you. If you love Jesus and have chosen to follow Him, then you are the church. Let's figure out together how to be the best church we can be. "Brett Anderson weaves a picture of the church that is stark and real. He sees through church politics and denominational blinkers and defines the core of what the church is and isn't and what God desires it to be." [Bruce Collins, legend and appreciator of good coffee]

One day, Bernie forgot to feed his fish. The fish were hungry. They wanted their food. But, what could they do--Bernie was busy! Well, they did all sorts of funny things. They wrote him a message. They swam upside down. They even performed a dance. They did other goofy things as well, but did they succeed? Did Bernie notice them, and did he finally reward them for their wacky reminders? Three Hungry Fish is especially suitable for children who are about two to seven years of age. Pre-schoolers will enjoy hearing this story, because they'll identify with the three main characters. They will also like the easy-to-see line drawings. The book is formatted landscape view, which makes reading it aloud much more convenient.

This is the true story of a 13 year old child who has a profound vision in the middle of the night to become a preacher. She graduates U.C. Berkeley at age 20 with honors bent on entering Harvard Divinity as the next female Asian "Malcolm X." Then, her father is diagnosed with cancer. Her divine gift, her ability to "pray" fails her and he dies. Disillusioned, she becomes the protégé of an elite pimp who enchants her by offering her the education, tools, and training to become one of the highest paid call-girls in San Francisco. Longing to feel holy again, she cannot resist touching the spiritual wounds of her clients and eventually, chooses to use her power to heal rather than to destroy. Visit [www.SacredFleshbook.com](#)

Originally published: Woodstock, N.Y.: Overlook Press, 1994.

"This book is the first in-depth study of the forty short texts James Joyce called "epiphanies." Sangam MacDuff argues that the epiphanies are an important point of origin for Joyce's entire body of work, showing how they shaped the structure, style, and language of his later writings"--

A collection of writings by the Writers of the Round Table, a group of writers who "write to the prompt."

Unearthing individual stories and statistical records from previously overlooked birth control clinics, Cathy Moran Hajo looks past the rhetoric of the birth control movement to show the relationships, politics, and issues that defined the movement in neighborhoods and cities across the United States. Whereas previous histories have emphasized national trends and glossed over the majority of clinics, Birth Control on Main Street contextualizes individual case studies to add powerful new layers to the existing narratives on abortion, racism, eugenics, and sterilization. Hajo draws on an original database of more than 600 clinics run by birth control leagues, hospitals, settlement houses, and public health groups to isolate the birth control clinic from the larger narrative of the moment. By revealing how clinics tested, treated, and educated women regarding contraceptives, she shows how clinic operation differed according to the needs and concerns of the districts it served. Moving thematically through the politicized issues of the birth control movement, Hajo infuses her analysis of the practical and medical issues of the clinics with unique stories of activists who negotiated with community groups to obey local laws and navigated the swirling debates about how birth control centers should be controlled, who should receive care, and how patients should be treated.
