Gender in the Book of Ben Sira is a semantic analysis and, also, an investigation of hermeneutical pathways for performing such an analysis. A comparison of possible Greek and Hebrew gender taxonomies precedes the extensive delineation of the target-category, gender. The delineation includes invisible influences in the Book of Ben Sira such as the author 's choices of genre and his situation as a member of a colonized group within a Hellenistic empire. When the Book of Ben Sira 's genre-constrained invectives against women and male fools are excluded, the remaining expectations for women and for men are mostly equivalent, in terms of a pious life lived according to Torah. However, Ben Sira says nothing about distinctions at the level of how " living according to Torah " would differ for the two groups. His book presents an Edenic ideal of marriage through allusions to Genesis 1 to 4, and a substantial overlap of erotic discourse for the female figures of Wisdom and the " intelligent wife " creates tropes similar to those of the Song of Songs. In addition, Ben Sira 's colonial status affects what he says and how he says it; by writing in Hebrew, he could craft the Greek genres of encomium and invective to carry multiple levels of meaning that subvert Hellenistic/Greek claims to cultural superiority.
